# CONTACT BUG ELIMINATOR

## EFFECTIVE - SAFE\* - NATURAL\*\*

Finally, an effective solution to crawling and flying insects that can be used on food contact surfaces. This ready-to-use spray is simple to use — just point the nozzle at the targeted pest, spray and wipe up. No mixing required, non-corrosive & non-staining. Use it with confidence — even while your facility is in operation — to help maintain a pest-free facility.

## OUR CONTACT BUG ELIMINATOR IS DIFFERENT BECAUSE SOME OTHER BRANDS:

- Are not safe and have high toxicity
- Can not be used on food contact surfaces
- Are flammable
- Needs to be shaken prior to use because the product separates

## FEATURES / BENEFITS

Delivers immediate impact upon contact. Spray Contact Bug Eliminator directly on flying and crawling insects for immediate results.

- Cockroaches
- Drain flies
- Ants
- House flies
- Spiders
- Bed bugs

Contact Bug Eliminator may be used in commercial food handling and food preparation areas.

- For use on countertops and other food contact surfaces.
- Use it right while you work — no business disruption, shut-down or waiting until after hours.

\*Safe for food contact surfaces

\*\*Derived from natural ingredients
