FOAMING HAND HYGIENE SYSTEM

FOAMING HAND HYGIENE SYSTEM

Be proactive and help prevent the spread of illness with meticulous hand hygiene. Protecting your employees and guests from illness is important. Handwashing is the single most important way to help prevent the spread of infectious organisms.

WHY IS USING HANDCARE PRODUCTS IMPORTANT?

- Protecting your employees and guests from illness is important in maintaining a healthy, productive operation.

- The CDC recommends washing your hands often with soap and water, and using hand sanitizer to protect from infection.

- Implementing proper hand hygiene procedures can help reduce employee absenteeism and improve guest perceptions.

FEATURES / BENEFITS

- Silky, smooth foaming product covers hands better, faster and rinses more easily for effective handwashing.

- One pump of the dispenser delivers a generous amount of foam. More than 1,000 washes per 750 ml bottle means fewer bottle change outs.

- Advanced formula features pleasant citrus fragrance, skin emolients and moisturizers. Effective against germs, yet gentle on hands, leaving hands smelling fresh and clean.
