PRESOAK RTU

Monogram® Clean Force® Presoak RTU

Can anything be more aggravating than bits of food on flatware that's just come out of the dishwasher? Monogram Clean Force Presoak RTU provides a simple and effective solution to this recurring warewashing problem. The Presoak Ready to Use tablet contains enzymes to break down tough food soils the dishmachine can't handle alone. What's more, Presoaks offer advantages over manual detergents, which don't neutralize food soils or have enzymes to aid in soil removal. Save time and labor by reducing rewash, water consumption and electricity.

Attributes

- Enzymes break down tough food soils, such as starch and protein films on flatware before washing
- Prolongs the life of flatware – less frequent replacement
- Neutralizes food soils

Benefits

- Improves guest satisfaction and retention
- Minimizes total cost of operation – reducing rewashing and dishmachine detergent used, as well as labor, water and electricity used
- Offers advantages over manual detergents, which can cause excessive foaming in the dishmachine

Directions

Use one tablet per three U.S. gallon (11.3 L) bus tub.
