

Sanitizers vs. Disinfectants:

WHERE, WHEN AND WHY TO USE EACH

Help achieve clean, healthy spaces with proper products and procedures.

Help manage public health risk with EPA-registered **Monogram® Clean Force® Surface Cleaner Sanitizer** (EPA Reg. No. 1677-259) and **Monogram® Clean Force® Rapid Multi Surface Disinfectant Cleaner** (EPA Reg. No. 1677-273). Both are proven effective against common pathogens like Norovirus¹ and SARS-CoV-2.²

This guide will help you understand where and why to use each product.

Sanitizing

REDUCES the number of **BACTERIA** in the environment, significantly.

Disinfecting

DESTROYS or irreversibly inactivates **BACTERIA & VIRUSES**.^{1,2}

USE COMPARISON

Monogram® Clean Force® Surface Cleaner Sanitizer

FOOD CONTACT SURFACES

Cleans, sanitizes, and kills viruses in 2 steps on hard, non-porous, food contact surfaces without rinse

- Front of House
- Back of House
- Third Compartment Sink Sanitization

2-IN-1 CLEANER & SANITIZER

- Broad foodservice applications including food contact surfaces and third compartment sink sanitization
- Meets FDA Food Code requirements
- No PPE required at use dilution and when using spray bottle or immersion application

CONFIDENCE IN CLEAN

- Kills SARS-CoV-2 in 15 seconds¹
- Kills Norovirus, common cold and flu viruses in 30 seconds¹
- Sanitizes bacteria that causes foodborne illnesses in 1 minute¹

Monogram® Clean Force® Rapid Multi Surface Disinfectant Cleaner

NON-FOOD CONTACT SURFACES

Cleans, disinfects, and kills viruses in 1 step on hard, non-porous, non-food contact surfaces

- Restrooms
- High Touchpoints
- Glass

4-IN-1 CLEANER & DISINFECTANT

- One product disinfects and cleans hard surfaces to help make your cleaning process easier
- Provides soft surface sanitization and disinfection
- Streak-free performance on hard surfaces and glass
- No PPE required at use dilution and when using a spray bottle application

CONFIDENCE IN CLEAN

- Kills SARS-CoV-2 in 10 seconds³ and kills Norovirus and the common cold and flu viruses in 30 seconds²
- Hospital disinfection in 3-5 minutes² using spray applications
- Soft surface disinfection in 10 minutes⁴

Where

Why

Efficacy

¹When used according to the direction for use. Refer to EPA Reg. No. 1677-259.

²When used according to the direction for use. Refer to EPA Reg. No. 1677-273.

³When used according to label directions; EPA Reg. No. 1677-272 and 1677-273 (RTU). Claim approved by federal EPA.

In California, claim is under review and not approved at this time. In California, please follow label directions for 30 second SARS-CoV-2 claim.

⁴Claim approved by federal EPA. Soft surface disinfection and soft surface virucide are not approved in California. In California, please use soft surface sanitization application.
